Rapogi Lwanda School Project
Update November 2021

Above is a November 4 picture of progress on the Dining Hall and Kitchen for the Rapogi Lwanda School. This is a large building, designed to provide seating at long tables for the 380 students to eat their lunch, instead of having to sit on the ground, as you see a few doing below left. The kitchen at the right end requires additional funding to equip with electric stoves, refrigerator, cupboards, serving counter, and storage, all to replace what you see below right. We welcome donations to complete the kitchen.

Lin's Legacy

Lin Shapka, daughter of Keith and Ngaire Clouten, passed to her rest on November 17, 2021, after a long struggle with cancer.

In 2017, Lin visited Rapogi School and met an orphan girl whom she had been supporting through elementary school. In the following year, 2018, Lin made a substantial donation for construction of a vocational school at Rapogi where orphan students could get training in a number of skills—sewing, carpentry, baking, and simple repair of bicycles and motor cycles.

Vocational School (above) and sewing;

Making school desks (left) and Posha Mill for Ugali (right).
